Introduction
This report is based on the findings of the Queensland Government Next Step survey, which targeted all students who completed Year 12 and gained a Senior Statement in 2011, whether they attended a government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between April and May 2012, approximately six months after the young people left school. Responses were collected via computer-assisted telephone interviewing and an online survey.

The state-wide and regional reports of the Next Step survey can be located at the Next Step website at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

Response rate for Dalby Christian College
Table 1 below reports the response rate for Dalby Christian College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Dalby Christian College in 2011.

Definitions of main destinations
The pathways of Year 12 completers were categorised into ten main destinations. Respondents who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the state-wide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

Summary of findings
In 2012, five young people who completed Year 12 at Dalby Christian College in 2011 continued in some recognised form of education and training in the year after they left school.

The most common study destinations were university (two respondents) and apprenticeships (two respondents). The combined VET study destinations accounted for three respondents, including one in campus-based VET programs.

In addition to the above study destinations, a further one respondent from this school deferred a tertiary offer in 2012 (deferrers are shown in Figure 1 in their current destination).

Four respondents did not enter post-school education or training, and all were employed.
