

# NEXT STEP 2011 STUDENT DESTINATIONS Dalby Christian College

## Introduction

This report is based on the findings of the Queensland Government *Next Step* survey, which targeted all students who completed Year 12 and gained a Senior Statement in 2010, whether they attended a Government, Catholic or independent school, or a TAFE secondary college. The Office of the Government Statistician conducted the survey between 4 April and 16 May 2011, approximately six months after the young people left school. Responses were predominantly collected via computer-assisted telephone interviewing with an online and paper-based survey collected from a small number of students for whom telephone details were not available.

The statewide and regional reports of the *Next Step* survey can be located at the *Next Step* website at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

## Response rate for Dalby Christian College

Table 1 below reports the response rate for Dalby Christian College. It expresses the number of respondents from this school, as a percentage of all Year 12 completers attending Dalby Christian College in 2010.

It has not been possible to ascertain how representative these responses are of all students at this school.

**Table 1 Survey response rate**

Number of respondents	Number of students who completed Year 12	Response rate (%)
6	7	85.7

## Definitions of main destinations

The pathways of Year 12 completers were categorised into ten main destinations. Respondents who were both studying and working were reported as studying for their main destination. A table defining these categories can be found in the statewide report at [www.education.qld.gov.au/nextstep](http://www.education.qld.gov.au/nextstep)

## Summary of findings

In 2011, five young people who completed their Year 12 at Dalby Christian College in 2010 continued in some recognised form of education and training in the year after they left school.

The most common study destination was apprenticeships (three respondents). University also accounted for one respondent.

In addition to apprentices, one other Year 12 completer commenced employment-based training as a trainee.

There were no respondents from this school who deferred a tertiary offer in 2011.

One respondent did not enter post-school education or training, and was employed.
